Message from Hon. Dr. Ramesh Pathirana Minister of Industries and Plantation

It is my pleasure to release this message of congratulations for the 20th successive Edition of Profood- Propack & Agri-Biz 2023 trade fair of National Agri Businesses to be held at the BMICH, Colombo from 4 - 6 August 2023. Considering the scale, coverage and other events incorporated to Profood-Propack & Agri-Biz 2023 Trade Fair exhibition I recognize it as one of the largest exhibitions in processed Food sector to be held in Sri Lanka. The Pro Food – Pro Pack 2023 Edition is to act as a one stop shop

for solutions with a key theme “From Farm to Fork” and is to showcase major Agri product sectors with new global packaging trends. I learn that is to facilitate 300 exhibitors who are in Sri Lanka as well as 20 exhibitors from overseas countries to exhibit more than 1000 new products and services. I am confident that this exhibition will attract all the stakeholders who are from the retail and wholesale food & beverage sector connectivity.

Having noted the major role played by the Small & Medium Sector Entrepreneurs in this Sector, Ministry of Industries is also organizing a special pavilion for them to exhibit their products, Services and talents and to facilitate them exploring further potential for future growth. It is commendable that this exhibition accommodate universities and several state organizations in order to share their knowledge and technology with the industry, which would eventually linkup for mutual benefits. I would like to express my sincere gratitude to the members of the Organizing Committee for their efforts and far sighted vision in facilitating this industry and trade sector. I wish Profood-Propack & Agri-Biz 2023 a productive success!!

Hon. Dr. Ramesh Pathirana

Message from the President Sri Lanka Food Processors Association (SLFPA)

I am pleased to issue this message at the inauguration of Pro Food, Pro Pack & AgBiz 2023. This exhibition is organized for the 20th occasion on the theme "Farm to Fork". Pro Food, Pro Pack and AgBiz is Sri Lanka's premier exhibition on food industry highlighting agriculture, poultry, food processing and packaging to bring out the latest developments. As we emerge from a number of challenges in the past, food sector was relatively resilient and stood firmly, averting a 'food crisis' as predicted by

many. I am happy to note that this exhibition is becoming international with many exhibitors joining from overseas. By the participation of state universities and the innovations of undergraduates are exposed to potential investors. The opportunity to highlight new products and conduct trials to the visitors of this exhibition had paved the way for many commercially successful products in the past. Also, I wish to thank all the exhibitors for their valuable participation in this nationally recognized event of the food industry. In this regard the encouragement received from the Hon. Minister of Industries, the Secretary and her team from the Ministry of Industries is significant and the progress recorded so far is a great testimony to their wise advice.

I also wish to thank our sponsors, all stakeholders, and the venue partner - BMICH Exhibition Center for their unstinted support. Finally, I wish to congratulate the Chairman of the Organizing Committee and the executive committee members together with event organizer LECS for their tireless efforts to make this event successful amidst various challenges.

I wish every success to all exhibitors of this year's Pro Food, Pro Pack & AgBiz 2023. Good Luck!

Delano Dias

Message from the Managing Director Lanka Exhibition & Conference Services (Pvt) Ltd

It is with immense pleasure that I extend this message for the 20th Pro Food/Pro Pack & Ag Biz Exhibition which is being held from 04th - 06th August 2023. We, at Lanka Exhibition & Conference Services are honoured to be associated with the Sri Lanka Food Processors association and The National Agri Business Council from the inception of this event.

When we first started this exhibition, we had 50 stalls and welcomed 5,000 visitors. It was a modest beginning, but we were driven by a shared vision of creating a platform that would bring together industry professionals, foster innovation, and drive growth in the food and packaging sectors. Little did we know that this humble start would lay the foundation for something truly extraordinary.

Today, as we approach the 20th edition, I am proud to announce that our exhibition has expanded exponentially. We now boast over 300 stalls, showcasing a wide range of products and services from leading companies in the industry. This growth is a testament to the trust and confidence that exhibitors have placed in us, as well as the recognition of the exhibition as a premier event in our field.

Equally impressive is the surge in visitor numbers over the years. From our initial 5,000 visitors, we have witnessed a remarkable increase, with over 30,000 individuals attending the exhibition last year. This tremendous growth in attendance is a testament to the value and relevance of the Pro Food Pro Pack and Agbiz Exhibition in Sri Lanka.

As we embark on the 20th edition, it is important to acknowledge the collective effort and support that has fueled this growth. I extend my heartfelt gratitude to all the exhibitors, visitors, sponsors, and partners who have been instrumental in making this exhibition a resounding success. Your contributions have played a

pivotal role in transforming the Pro Food Pro Pack and Agbiz Exhibition into a premier industry event.

I encourage each and every one of you to actively engage with the exhibitors, attend the interesting sessions, and participate in the various networking opportunities available. This exhibition is not only an occasion to showcase your own products and services but also a chance to learn from your peers, discover new trends, and forge valuable connections that can shape the future of the industry.

As we embark on the 20th edition, it is important to acknowledge the collective effort and support that has fueled this growth. As the professional exhibition organizer, I take this opportunity to thank our partners, the Sri Lanka Food Processors Association and the National Agri Business Council for giving us the opportunity once again to jointly organize this mega event.

Also, I extend my heartfelt gratitude to all the exhibitors, visitors, sponsors, and partners who have been instrumental in making this exhibition a resounding success. Your contributions have played a pivotal role in transforming the Pro Food Pro Pack and Agbiz Exhibition into a premier industry event.

I wish you all a very successful Profood/Propack and Ag Biz exhibition 2023.

Arjun Dharmadasa

Message from the Chairman Organizing Committee Pro Foods/ Pro Pack & Ag Biz 2023

It is with great pleasure that we present the 20th edition of **Profoods / Propack Agbiz 2023** exhibition taking place from 4th – 6th of August, 2023, at the BMICH Exhibition Center, Colombo. I feel privileged to have the opportunity to Chair the organizing committee on this occasion and place this message.

The event is proudly Organized by the Sri Lanka Food Processors Association (SLFPA) and endorsed and supported by the Ministry of Industries, National Agribusiness Council, and the Institute of Food Science and Technology Sri Lanka. The event is one of the most comprehensive processed food, packaging and agricultural exhibition with a complete one stop shop solution in the region. This landmark event is set to bring together industry leaders, stakeholders, and decision makers in the said sectors and importantly the academia who brings in new insights to the food science fraternity.

Profood Propack & Agbiz 2023 is set to be an astonishing event with its focus on agriculture, food processing, packaging, and knowledge sharing. We have partnered with ten universities to showcase their innovations, and at the end of the event all stall holders are evaluated on their presentations and recognition awards are presented. This exhibition is a prime opportunity for participants to network, exchange ideas, and stay updated on the latest industry trends. At a macro level, the food industry is encouraged by the exhibition to embrace new technology and innovations to meet new global standards.

Profoods / Propack & Agbiz 2023 has grown to be an International Processed Food, Beverage, Packaging & Agricultural Exhibition to showcase Sri Lankan as well as international products, and attracts visitors from around the world. We

are indeed proud of our achievements during the last 20 years. The rapid growth in the Processed Food, Packaging and Agricultural Sectors, I believe is due to the platform we have created for the manufacturers to display and promote their products through this International Exhibition.

May I take this opportunity to congratulate and wish success to the sponsors, exhibitors, partners, event organizers, and the organizing committee of 'Pro Foods, Pro Pack & Ag Biz' for a successful event.

Vasantha Chandrapala

Message from the Group CEO Maliban Group of Companies

Recognized as the premier Agriculture packaging exhibition, ProFood ProPack & Agbiz 2023 offers a platform for both domestic and international companies to showcase their latest innovations, providing local businesses with valuable insights into the industry's advancements.

In a bid to promote positive impact, Sri Lanka's favorite household brand Maliban Biscuit Manufactories is honored to serve as the platinum sponsor for the 08th consecutive year for ProFood ProPack & Agbiz exhibition.

This event has garnered significant interest from international participants and suppliers, creating conducive networking opportunities for local enterprises to explore emerging market prospects and expand their customer base.

We extend our heartfelt congratulations to the esteemed chairman and the dedicated organizing committee for their relentless efforts in ensuring the success of this event. We wish them the best of luck in all their future endeavors.

Ravi Jayawardana

Message from the Senior General Manager - International Sales & Marketing Pakona Engineers (India) Pvt. Ltd. - Platinum Sponsor

Profood Propack exhibition on Food Products and Food Packaging in Srilanka provides tremendous opportunities to International Companies to display their products and promote the latest technologies to the various Industries.

PAKONA ENGINEERS is a pioneer in the field of packaging industry and today we stand tall as one of the leading manufacturers of Flexible Packaging Machines for the Food Industry. With over 175 machines installed and in operation in the Srilankan Food Industry, we are grateful to our Srilankan Customers and Friends for making PAKONA a household name in this segment.

PAKONA ENGINEERS is pleased to be associated with Profood Propack Exhibition for the past 15 years and shall continue to support this initiative.

We would like to extend our Congratulations to the Chairman and the entire Organising Committee for their commitment to make Profood Propack & Agbiz 2023 a grand success.

Organization Profile

The Sera brand is the strong and equitable culinary brand in CBL Group which established on a robust convenience platform with the vision of to be the Aspirational Kitchen partner for the convenience seeking Home Maker.

Sera launched Liquid Coconut Milk in 2015 and started its culinary journey by building trust among the consumers with its quality, natural and convenient liquid coconut milk products range.

Further Sera penetrated in to more households by launching its entry products range of Salt, Noodles and build trust and equity among the consumers. The busy lifestyles of working mothers and homemakers have created a massive demand for good convenient meal options and Sera address this need gap by introducing value added food products like soup, herbal porridge and Kottu.

In a very short period, the Sera brand extended its credentials across multiple food categories and its well established and highly penetrated into mass market Sri Lankan households. The latest addition of the portfolio is Sera Spices which produces through Sri Lanka's first ever "Low Temperature Grinding Technology" by protecting the taste, aroma and quality of Spices.

Organization Profile

Maliban group of companies are one of the major players in the food industry in Sri Lanka with a solid existence for over 65 years. Inspired by the commitment of founders, strong chain of leadership, commendable team work and implementation of innovative strategies.

Tea is a specialized product that requires special attention when brewing. In order to create a quality product to our consumers, we have outsourced the blending and packing of tea to Ceylon Tea Marketing (Private) Limited (CTM). With the expertise of CTM brings from many years in the tea industry, we are assured in receiving quality products. Marketing and distribution is done by Maliban Dairy & Agri Products (Private) Limited.

Maliban Tea was launched in 2017 where the quality of the product has been the focus. The product has received SLSI certification. The tea is a dust blend best served as a plain tea. Maliban Tea product range has three main brands. Which are "Maliban Tea Padamata Kahata", "Kahata Poronduwa" and "Maliban Gold BOPF". Further, the Tea range is available in both General trade and Modern trade with different SKUs

Maliban Yaha Posha was launched recently to the market with few SKUs. Yaha Posha is a healthy breakfast cereal and an evening snack. The primary target audience are kids, while secondary audience are young and older adults. Yaha Posha is free from chemicals, has no added flavours, colouring or preservatives, ensuring a healthy diet for everyone at home. The product consists of Corn, Soya, Green Gram, Rice, Milk, Vitamin and Mineral Premix.

Greetings from CAP Organic!

Who we are

We, CAP Organic an SME, that 5 years ago had the foresight to place its confidence in agriculture by investing in the plantation of soursop. We ventured into the industry, innovating and thriving on the developments and health benefits of Soursop. With this extremely health-beneficial antioxidant plant, we produce Drinks, Leaf Tea, Herbal Wine, Whole fruit Crackers & fruit extract in powder form. We also produce healthy and nutritious products using tropical fruits such as Jackfruit, Passion fruit, TJC Mango, Durian and King Coconut.

Our products are Organic and developed in environmentally friendly conditions that operate with sustainable initiatives such as generating self-Employment and women empowerment.

Currently, we are accredited by EU Organic and USDA (NOP)Organic. Additionally, our factory has received certifications for ISO 22000-2018, HACCP, and GMP. We in the process of obtaining FSSC certification.

Today, we have not only been able to testify and propagate our agenda but have begun contributing to the economy through many parameters, significantly by exporting these value-added products with the support of the Sri Lanka Export Development Board (EDB) to 11 countries on a small scale taking the jungles miracle cure to the world!

Organization Profile

Pearl Garden Mills heirloom rice and rice products represent a deep connection to Sri Lanka's agricultural heritage, where rice has always been a life-giving, nourishing staple. In the face of all the challenges brought on by the global pandemic and its economic impacts on the lives of Sri Lankan farmers and workers, Pearl Garden Mills seeks to empower communities while bringing ancient heirloom rice products that are sourced on regenerative, organic and fair trade terms to domestic and international markets.

A founding principle at Pearl Garden Mills is that agriculture, when done right, can not only feed the world but also regenerate soil, protect biodiversity, support good health, provide economic empowerment and help reverse climate change. Pearl Garden Mills heirloom rice is grown using climate smart, time-honoured methods handed down over generations. Cultivated in harmony with nature on pristine land and needing less water per grain produced, this nutritious and delicious rice is also glyphosate and lead free, protecting the environment and your family's health.

Organization Profile

Posha Crunch is a brand under The Renewable Energy Solutions Pvt. Ltd. (TREES Pvt. Ltd.) Currently we have a total of 6 products in our range - Cereal Snacks, Cheddar Cheese Snacks, Oats Snacks, Butter Snacks, Peanut Butter & Jam Snacks, and Veggie Snacks. Our biscuits are made with in-house made cereals which include rice, maize, corn, soy, green gram, milk powder, local butter, and eggs that are free from antibiotics and growth hormones.

Both the eggs and the ingredients for the cereals are sourced from local farmers around Ampara and Horana in small quantities to maintain freshness and quality. The cheddar cheese and butter we use is also freshly sourced from Kotmale. For our veggie breadsticks range, the vegetables are sourced from nearby houses that grow them for their personal use in small quantities without any pesticides. Oats are sourced from Oateos.

In addition to this, we also aim to promote upcycling through our packaging where children are given the opportunity to color or paint in the doodles that are part of the package design.

Organization Profile

We are Unistar International (PVT) LTD, a renowned supplier of Ceylon Organic Spices & Coconut Products & Dried Fruits & Vegetables. With a strong commitment to excellence, we have established ourselves as a trusted exporter in the spices and coconut products industry since 2018. Over the years, we have accumulated extensive experience and knowledge, constantly improving and expanding our practices.

At Unistar International, we take pride in maintaining the highest standards as a manufacturer and supplier. Our dedication to quality is reflected in the innovative products we offer, meticulously crafted with precision and care. Serving both local and global companies, we strive to meet the diverse needs of our clients.

As members of prestigious organizations such as the Export Development Board, Chamber of Commerce, and National Chamber of Exporters of Sri Lanka, we uphold the values of professionalism and integrity in our operations.

Operating from our modern facility in Ratmalana, Sri Lanka, we are a full-service spice company. We carefully source top-quality ingredients in bulk quantities directly from farmers and collectors. Through our stringent processes of processing, grading, and manufacturing, we ensure the utmost safety and quality in all our products.

One of our greatest joys is knowing that the spices and coconut products we provide enhance the flavors of dishes enjoyed by people from around the world. Furthermore, we are committed to giving back to society and the environment. We regularly donate a percentage of our profits to support social and environmental causes.

Stall No. : E53

Organization Profile

Experience the transformative journey of sweetness with Uva Mahajana Sugarcane Products. Here, we take pride in introducing you to the golden delight of Jaggery, a premium, unrefined natural sweetener with a rich cultural heritage. White sugar, the universally adopted sweetener, is highly refined and nearly pure sucrose. Though it offers a quick energy fix, it lacks the essential nutrients your body craves, and its rapid absorption triggers an abrupt blood sugar elevation.

Then, we have red sugar, also known as unrefined or brown sugar, with slightly more nutrients due to retained molasses. But, it doesn't differ significantly from white sugar in its nutritional impact or absorption rate. Here's where our Jaggery shines. Unlike these commonly used sweeteners, jaggery is a testament to authenticity and natural goodness. Its minimal processing ensures the preservation of beneficial elements like trace minerals, vitamins, and plant compounds. The unique combination of these nutrients facilitates a slower, more balanced absorption, yielding a steadier energy release and a gentler impact on your blood sugar levels.

Moreover, jaggery's potential in contributing to cancer prevention makes it a noteworthy choice. Although it's not a proven cancer shield, it is rich in antioxidants that battle against oxidative stress, a contributor to cancer development. Emerging research indicates that jaggery's antioxidant content may help protect cells from free radical damage, potentially reducing the risk of certain cancers. It's important to underscore that while jaggery may offer

potential health benefits, it is the broader picture of diet and lifestyle that plays a paramount role in cancer prevention. Remember, even when embracing the beneficial aspects of jaggery, moderation remains crucial, as it is a caloric source and should complement a balanced, nutrient-rich diet.

Uva Mahajana Sugarcane Products invites you to join us on this exhilarating voyage towards enhanced well-being. Savor the sweetness of our premium jaggery, embodying not just a healthier choice, but a holistic lifestyle. Step into a world where sweetness intertwines with health, one spoonful at a time.

Organization Profile

Foreconns Canneries established in 1989 is the first fish canning factory in Sri Lanka approved by the European Union. There are over 75 employees currently employed.

The nature of business at Foreconns Canneries includes the processing of canned and bottled cashews, vegetables, chutneys and pickles and vacuum-packed fish and dried fish. Foreconns produces a variety of ethnic food items which are mainly distributed in foreign countries. Some of our main products include Spicy Tuna (Ambulthiyal), Tuna fish curry, Breadfruit curry, Cashew curry and Fish Spread etc.

The maintenance of European Union and Food and Drug Administration (USA) standards together with HACCP, ISO 22000 and SLS certification has enabled us to provide great satisfaction to end users in taste in every piece and drop.
